Presents

**MODELLING WITH EACH  
OTHER**

***MODEL RAILROAD MEET***

Instructor: Each Other

Saturday November 5, 2005

The Meet will be a little different than what we have done in the past. Instead of working on a kit supplied by an instructor, you are invited to bring a project that you are working on to the Meet and work on it there. We will share ideas and admire each other's work. Whether it is a plastic or resin kit, making trees, and electrical project or building turnouts or what ever you have to do - bring it along. The Meet will give you the chance of working on a project uninterrupted for a few hours. No phone ringing, no spouse asking you to run an errand, just modelroading at its best. While we are working we will be running a couple of videos to further our education.
